## Indian Science Congress Association (ISCA)

The Indian Science Congress Association (ISCA) owes its origin to the foresight and initiative of two British Indian Chemists, namely, Professor J. L. Simonsen and Prof. P. S. McMahan. The Association was formed with the following objectives:

- To advance and promote the cause of science in India
- To hold an annual congress at a suitable place in India
- To publish proceedings, journals, transactions and other publications, and
- To popularize the benefits of science to the environment and society.

for detail Information kindly visit: [www.sciencecongress.nic.in](http://www.sciencecongress.nic.in)

## ISCA, Bhubaneswar Chapter

One of the focal objectives of Indian Science Congress Association (ISCA), the premier and the oldest scientific organization of the country, has to promote scientific temper among young scholars as well as mid-career scientists and to encourage them for participating in various programmes relevant to fundamental, experimental and operational activities aimed at human welfare. Keeping in view, ISCA initiated opening of Regional Chapters since 1986–87 at various places in the country.

The Indian Science Congress (ISCA) Bhubaneswar Chapter was started on June 5, 1996. Since 1997, in order to promote scientific temper the Chapter has been regularly holding a seminar on the theme of the ensuing Indian Science Congress. Besides this the chapter has been successfully organizing several kind of activities like observation of National Science Day, World Environment Day, Environment Awareness Campaign, Science popularization activities, Workshops/Seminar/Conference, Exhibitions, etc. ISCA Bhubaneswar Chapter is going to organize a National Seminar on the theme “Future India: Science & Technology” between February 1st & 2nd, 2019 at KIIT-DU, Bhubaneswar.

## KIIT Deemed to be University

Kalinga Institute of Industrial Technology (KIIT) Deemed to be University has come a long way within the shortest span of time as world class institution. Since its inception in 1992, KIIT has been emphasizing on quality education and it was declared as a University (u/s 3 of UGC Act of 1956) in 2004. The multi-disciplinary university having 22 constituent schools is presently offering diverse programmes with 30,000 students pursuing bachelors, masters and doctoral studies in Engineering, Management, Medicine, Dental Science, Nursing, Fashion Technology, Cinema & Mass Media Studies, and Language & Sculpture etc.

## Focal Theme

Due to the development of Science & Technology in our country the present economic scenario has been changed although the societal expectations from S&T are increasing with rapid advances in Science and Technology. To make Indian science and technology more noticeable, involvement of institutions of higher education is required thereby motivating young minds to contribute to challenging areas requiring advanced research.

Society has received immense benefit from the scientific discoveries which has reached the common man through a form of technology. A new technology which has impacted the society has very strong science backbone. Today, India needs to strengthen its scientific knowledge for development of relevant technologies which can be catered to the common masses. This is only possible through promoting and nurturing affordable innovation. Keeping in mind all these aspects the theme of the seminar has been chosen so that at the end of the discussion the future India Science and Technology may penetrate the young minds to fulfill the need for next two decades.
